

Olympic College

Bachelor of Applied Science in Information Systems

IS480 Senior Internship I

Quarter: <u>Winter 2023 and Spring 2024</u>	Completion date:
Student: <u>TRACY HARVEY</u>	Faculty advisor: <u>RICHARD BECKER</u>

PURPOSE: The Internship Objectives/Activities listed here will describe the tasks the student is assigned to complete during this Senior Internship. Additional tasks may be added if needed. At least four objectives must be defined.

1. **WHAT** are you going to accomplish? Gather system requirements for MVP

HOW are you going to accomplish it? (List the steps to achieve objectives, add more if needed.)

- A. Interviews
B. Observations
C. Brainstorming sessions

HOW can you measure the results? Stakeholders are aligned on vision

2. **WHAT** are you going to accomplish? Build solution for MVP

HOW are you going to accomplish it? (List the steps to achieve objectives, add more if needed.)

- A. System design docs
B. Software code
C. Deployment

HOW can you measure the results? Solution is deployed and functional

3. **WHAT** are you going to accomplish? Gather system requirements for Kitsap Harvest

HOW are you going to accomplish it? (List the steps to achieve objectives, add more if needed.)

- A. Interviews
B. Observations
C. Brainstorming

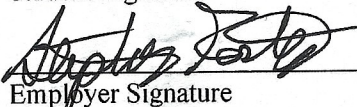

HOW can you measure the results? Stakeholders are aligned on vision

4. **WHAT** are you going to accomplish? Build solution for Kitsap Harvest

HOW are you going to accomplish it? (List the steps to achieve objectives, add more if needed.)

- A. System design docs
B. Software code
C. Deployment

HOW can you measure the results? Solution is deployed and functional
